Breakwater Steel Due To Arrive Sept. 25

PAHOKEE — Starting date for the construction of the Pahokee breakwater came a little closer this week with a report from Cleary Bros. Construction Company on the steel which is being imported from Belgium.

In a letter to City Attorney Ralph O. Johnson, V. R. Gorham, vice president of Cleary Bros., states that the 1,275 lineal feet of steel sheet piling to be used in the breakwater is scheduled to be shipped from Antwerp on the French Line steamship "Cavalier de La Salle" around the third of September.

MILLAGE SAME AT SOUTH BAY

SOUTH BAY — Freeholders' preference to keep local millage down and let school children continue to walk the highways to school for lack of walks and new roads Friday forced City Council to abandon plans for increased revenues in 1955-56.

An increase to 5 mills was first contemplated, for completion of city streets and new walks and roadways. South Bay's millage is far below that of Belle Glade (15) and Pahokee (16), both of which have in recent years budgeted considerable funds for street improvement.

No Second

At Friday's special meeting, Councilman I. P. Roberts' motion to increase the millage from 3.15 to 4 mills died for lack of a second and the Council voted to keep the millage at its present figure.

This action resulted because of objections raised by a group including C. E. Crichtfield, O'Neal Walker, Moses Hardy, R. R. Roadman and Councilman Frank Kelley, who said they objected to any increase regardless of its use.

During the lengthy discussion, one property owner said he was now paying 15 mills in Belle Glade and would be glad to pay the same amount in South Bay if he would benefit from it. Another stated he would be glad to pay 10 mills if the Council would reconsider the raised evaluation on the outlying and unimproved acreage.

Billy Rogers offered to furnish a bulldozer and driver free of any cost or obligation to the city for the required work if the city would pay for the materials. However, his offer was not accepted, as, under the existing millage, money would not be available to cover the cost of the needed materials.

330 More Blue Devil Spaces

PAHOKEE — With the addition of two new sets of bleachers, or 330 additional seats, at Lair Field, the total seating capacity will be about 2,000 this season. Principal Clyde Canipe announced this week. Two new gates are being put in, at Barfield and First, and on the south end near the tennis courts.

HERD SALE IS SET FOR SEPT. 7th

BELLE GLADE — An entire herd, including 105 young grade Brahman cows and about 80 calves and yearlings principally by registered Hereford and Angus sires, will be sold at Glades Livestock Market next Wednesday, Manager George C. Young said yesterday.

Pahokee Pool Closes Monday

PAHOKEE — Final day for operation of the swimming pool this year will be Labor Day, the last hours to be 7 to 10 p.m., Manager Leland Keene has announced.

Keene reported this week that to date, 14,000 children and 2,000 adult users of the pool have been clocked through the gate. Patronage this year has been better than usual partly due to its use by Belle Glade and South Bay residents who are working to get a pool of their own, Keene said.

This summer, a number of Red Cross water safety classes have been taught by Coaches Webb Pell and Bill Howard, adding to the interest of parents and children, the manager said.

TALLAHASSEE — The latest dean's list at Florida State University, announced by university officials this week, lists Margaret L. Shirley, of Pahokee. B average in academic work is required for undergraduate students to make the dean's list.

Pahokee Woman Fined In South Bay Fracas

SOUTH BAY — Mrs. Ela Mae Strickland, age 33, of Pahokee, was fined \$95 and \$5 costs, or 90 days in the city jail for beating her husband and firing a gun in the city limits, after catching her husband with his date at Griff's bar in South Bay Saturday night.

Austin Strickland, age 34, and a widowed mother of three children, went to South Bay for a few drinks. Mrs. Strickland, who had been separated from her husband for a short time and reconciled to him a week ago, became suspicious and followed him to Griff's where a family argument started.

HEALTH BLDGS. HOVER NEARER

With bids for construction of the new public health center at Pahokee to be received Sept. 12, and a new resolution of agreement to construct the Belle Glade center adopted this week by the County Commission, reality appeared nearer for both structures.

Both the cities of Pahokee and Belle Glade have long since put their respective shares of \$6,500 and \$12,025 into the fund to be matched by federal, state, and county monies for construction, under the Hill-Burton act.

Final federal approval for the Pahokee center has been granted, thus the call for bids to be opened Sept. 12. The resolution on the Belle Glade center adopted this week set out provisions of an agreement between the county and the federal government, specifying that in the event the health center was used for any other purpose within a 20-year period, federal construction would be repaid to the government.

In Belle Glade area, Harris Insurance is handling the licenses.

MAMA, WATCH SPEED IN SCHOOL ZONES

PAHOKEE — Parents, among the leading offenders when it comes to speeding in school zones, will be among those on whom the police will keep an eye now that school is open, Police Chief Leon Guthrie said yesterday.

Not only teenage drivers and out-of-town drivers, but parents bringing their children to school will be liable to a fine of \$25 minimum if they don't keep their speed to 15 miles per hour in the school zone and on nearby streets, Guthrie said.

There's another lovely aspect
about being man's best friend.
Man pays taxes — his best
friend doesn't.

Oh, I lead a dog's life once a
year when I have to work out
the cost of my license, but otherwise
the livin' is tax-free.

Lately, listening to the bosses
merl and terl about the millage
problems of our towns, I have
come to the conclusion that
taxes possibly are like the
weather. You know—everybody
talks about 'em, nobody does
anything about 'em.

It is my studied opinion that
no human enjoys paying taxes,
but as we all know—they're in-
evitable.

The bosses say they are fas-
cinated to find that most people
who raise cain with the city
daddies in South Bay, Belle
Glade, and Pahokee about taxes
are the same people who pay
the most fabulous county tax
millage known to man.

However, while howling that
city taxes are too high, they
cite the great deeds done for
them "free" by the county, ap-
parently forgetting all about that
high annual bill from WPB.

Even a dog can figure that
one out, I says to the bosses.

Perhaps, they reply, but it
is all a part of something called
"human nature," Schatzi—and
how can you figure it out if we
can't??

New Service Shop For Stanley

PAHOKEE — The former site of the local bakery came to life this week with the opening of Stanley Chevrolet's new service shop on Lake Ave.

With approximately 4000 square feet of floor space to work in, the company will now be able to offer their customers faster and more efficient service, according to M. P. Stanley, owner. Upwards of \$2,000 in special tools for Chevrolet and Oldsmobile has been added to their equipment and the installation of new Bear wheel alignment and balancing machines has been made.

The shop will also be equipped with acetylene and arc welding equipment as well as Sun motor analyzing equipment. A waiting room for customers will be provided, Stanley added. A new 10-wheel wrecker will go into service in the near future capable of raising up to 40,000-pound units.

Stanley's old shop will be used for new car storage and continuation of the paint shop work, Stanley said. Wiley Tillis was contractor for the new shop.

FARM BUREAU CHIEF SAYS FARMERS NEED CREDIT AS EFFICIENCY GROWS

As U.S. farmers grow more efficient they need more capital and credit, Charles B. Shuman, president of the American Farm Bureau Federation, said last night at the evening seminar of the University of Wisconsin's School of banking, Madison, Wis.

Production per man hour on U.S. farms has gone up 78% in the last 15 years, Shuman said, due to larger units, better technology, more mechanization, greater use of fertilizers and insecticides—all of which require working capital, he pointed out.

"To be efficient today a farmer has to have a business large enough to justify the capital investment required by modern farming methods. This does not mean that we are moving away from the family farm or toward a factory type or agriculture. It simply means that the family farm is growing with the economy of this country."

"Today's farmers are better businessmen, and also better customers for banks," Shuman said.

"On an overall basis, agriculture is in a price-cost squeeze. The situation is tough for many farmers, particularly the inefficient. The efficient farmers are still making money. They are still a good risk. Bankers generally can well afford to help finance improvements in agricultural efficiency," according to AFB's president.

Subsidies No Benefit
Rigid price supports at 90 percent of parity, he declared, have failed to benefit agriculture. "Under the high rigid price support program, farm prices have dropped 24 percent in the last five years," Shuman emphasized.

This system of government price fixing has been largely responsible for the farm surpluses which are now depressing farm income, he said. "If the variable price support program favored by Farm Bureau had been allowed to operate farmers would have adjusted their production to changing consumer demand after the war."

New Shirley Bros. Plant To Open

The Glades firm of Shirley Bros., Inc. will have its new Belle Glade plant in operation the first of next week, President Claude Shirley said yesterday.

The Redi-Mix concrete plant, replacing the old one on Pahokee-Belle Glade Rd., has three times the capacity of the former plant, Shirley said. With a 300-yard-per-day capacity, the plant is "built for the future," he said. The new plant, located on a railroad line just of SR 717, was begun six months ago.

The Shirley brothers, Claude and Lynn, came to the Glades from Continental O. Lynn Shirley came here in 1927, and operated a lumber yard before becoming an oil company distributor. Claude arrived in 1945, and Shirley Bros. was formed after that.

Proof Of Last Week's Fact

SUNFLOWERS DO NOT TURN WITH THE SUN

This is a very popular fallacy, arising perhaps from mythology. According to the myth, Clytie, daughter of Oceanus, became enamoured of Sol, the Sun. Later, when he despised her, she pined away in sorrow, and was finally changed into a sunflower. 1. Chambers Encyclopedia. 2. Encyclopedia Britannica - 11th Edition. 3.
